The complete solution to
apprenticeship delivery
for universities

www.aptem.co.uk

Aptem solves many of the specific challenges surrounding delivery of higher level apprenticeships in universities:

Working with employers

Many CRM systems can help you manage your sales processes with employers. There are also systems that manage vacancies and applications. However, purchasing separate systems may cost more and add an additional layer of complexity to your processes.

Onboarding

Your students need to be in your student registration system but you also need to submit ILRs with similar information in order to receive funding.

Consistency of learning

On a given course, most students will be attending as undergraduates and a small percentage will be apprentices. Support materials for both sets of students need to be common and will currently be held in your existing VLE. Copying these materials into a separate VLE for apprentices is an unnecessary administrative burden.

Gathering evidence for EPA

Your learning delivery takes many forms, from lectures to workshops to eLearning. You need a mechanism to capture and map evidence to the Skills, Knowledge and Behaviours of the Apprenticeship Standard to produce an ePortfolio for End Point Assessment.

Aptem cleverly manages all the apprenticeship-specific functions you require whilst acting as a bridge between the systems you have in place at your university.

We have an increasing number of university customers and understand the sector and the challenges you face with apprenticeships.

Proven, reliable and practical,

Aptem is a fully managed Software as a Service platform that operates through your browser, with no software, servers or maintenance required from you. Our commitment to quality has been recognised time and again by our customers, award wins, ISO 9001 and ISO 27001 accreditations and Cyber Essentials certification. Aptem is the UK's only end-to-end platform, proven and improved through years of extensive use by providers.

“I'm delighted with the difference that Aptem is making to Bucks New University's apprenticeship business. Aptem is complementary to our existing systems, streamlining processes and eliminating data complexity. It allows us to capture and map evidence for our programmes, and has made submitting ILR returns for funding a breeze. To top it off, the MWS implementation team have really supported our transition to Aptem and have been a pleasure to deal with.”

Steve Dewhurst,

Previous Director of Apprenticeships at Bucks New University

Aptem has been designed to tackle the issues that matter most to universities:

-
- ✔ **Slashing admin** – automated, streamlined processes and pre-populated data.
-
- ✔ **Solving the practical issues** in integrating employer-based apprenticeship delivery with normal HE full-time campus studies.
-
- ✔ **Communicating with existing systems** – APIs for university systems whilst making the most of Aptem's apprenticeship features.
-
- ✔ **Cutting costs** – reduced overheads, fewer mistakes and improved efficiency.
-
- ✔ **Freeing-up staff time** – more time to spend on ensuring great teaching.
-
- ✔ **Delighting learners** – a more engaging experience that nurtures talent.
-
- ✔ **Advancing delivery** – intelligent analytics to improve delivery.

Aptem combines all the functionality you need into one, easy-to-use interface.

Reporting & Data Analytics

Aptem brings all your data together in one place. From keeping everyone on track, to maintaining quality control and individual performance, our progress reporting and Predictive QAR make spotting problems and fine tuning your programmes a snap.

Employer CRM & Recruitment

Take control of all your employer and recruitment activity. With seamless data exchange between recruitment, onboarding and compliance, repetitive data entry is eliminated.

Paperless Onboarding & Compliance

Aptem handles onboarding without the headache of endless paperwork and chasing manual signatures, thanks to its built-in Ofsted and ESFA compliant modules. Aptem can be configured so that data entered automatically populates your existing student registration system and vice versa.

Funding

Aptem captures and maintains your Individual Learner Records data, ready to make a funding claim. In seconds you can generate a fully compliant batch report, and upload it straight into the ESFA Hub.

Learning Management

Create engaging learning journeys whilst capturing off-the-job hours. On its own or in combination with the existing university VLE, Aptem makes training and interaction available to anyone, wherever they are.

Progress Tracking

Aptem monitors everything that matters, from timely learning progress to off-the-job hours.

Integrated ePortfolio

Aptem combines learning delivery with ePortfolios, so evidence is effortlessly captured for Standards, Frameworks, Qualifications and End-Point Assessments.

Apprentice Management & Reviews

Aptem helps you stay close to your apprentices, making sure they are supported and engaged, with deadlines and progress tracked, so you can effectively deliver multi-year apprenticeships.
