## Product overview

A student's onboarding experience is crucial, but creation of a streamlined, efficient experience remains a challenge for many colleges: a situation that was exacerbated by the pandemic. A well-structured process boosts the overall productivity and engagement of the student across the whole student journey, reducing attrition rates.

Many colleges are taking learnings from the business world, which has seen well-structured onboarding programmes significantly reduce attrition and increase productivity. Colleges seek very similar goals with their new students, and there is renewed focus on creating a seamless, engaging and supportive onboarding process.

Aptem Enrol is used by colleges, universities and training providers across the UK to remotely onboard large volumes of students across all programmes, reducing the burden on administration teams and freeing them up to spend time on more complex tasks. Whilst this saves valuable time and money, most importantly it makes the process as stress-free as possible for students and employers, allowing them to quickly settle into their study programmes.

The flexibility of the system is invaluable to us and has helped us to improve our systems and processes. Issuing and tracking compliance documents has been so much easier. Overall, it's very easy to use the system and find the things we need.

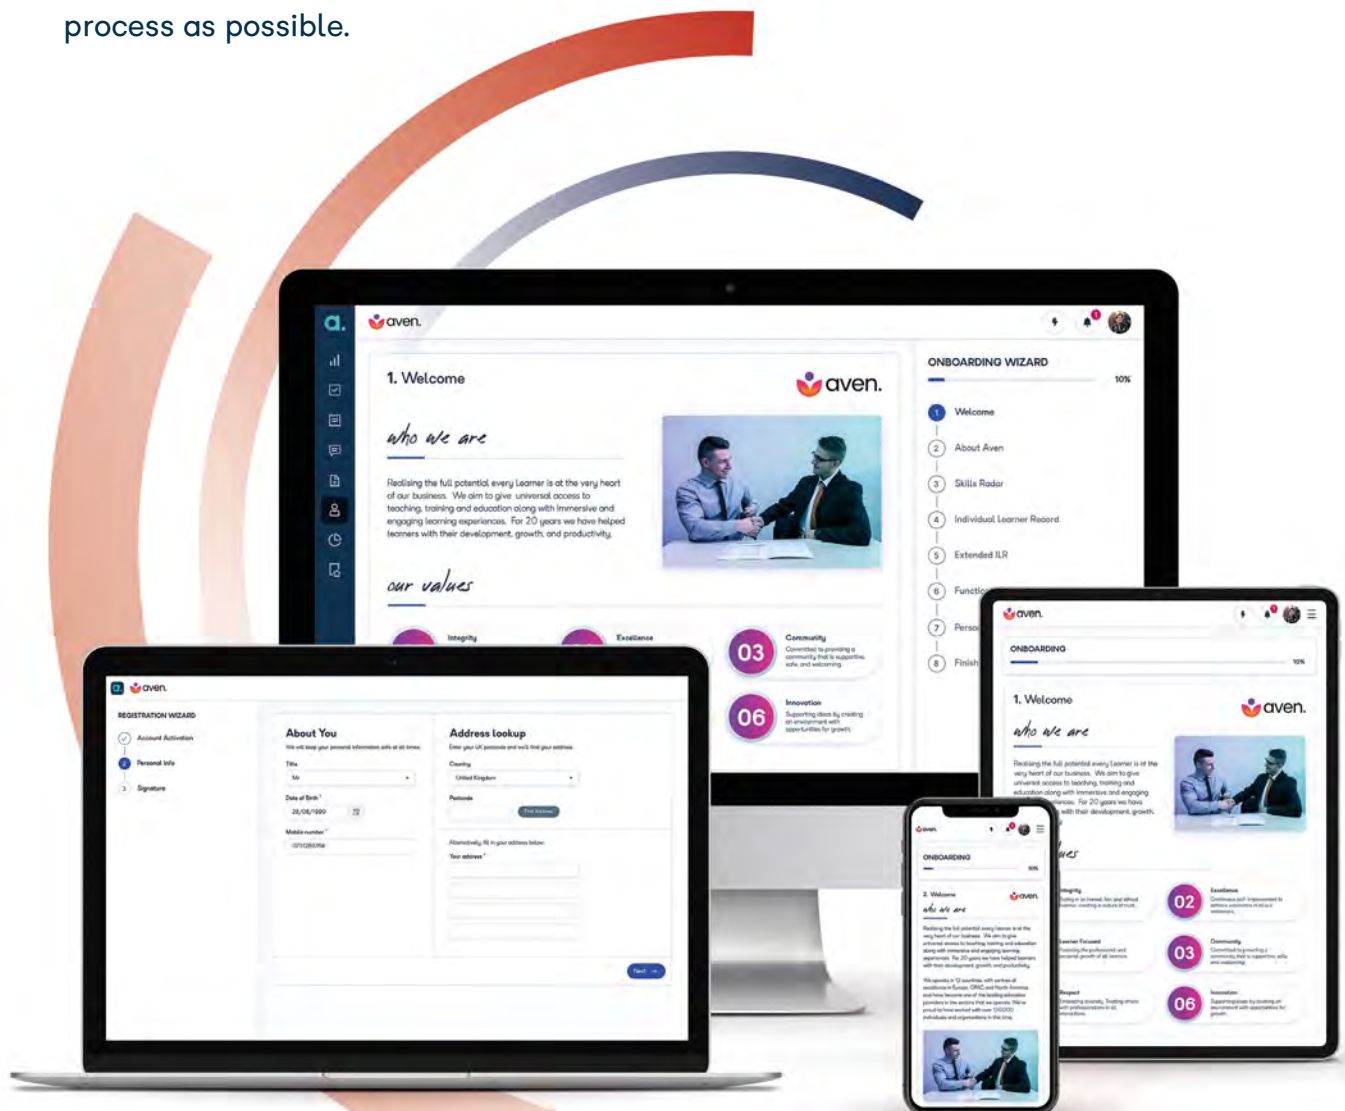

**Dominic Scott**, CRM/LMS Manager,  
Bradford College

Aptem Enrol is an intuitive, easy-to-use onboarding system, that offers a seamless data exchange between recruitment, enrolment and compliance:

- ✔ Removes endless paperwork and the chasing of manual signatures.
- ✔ Helps ensure all students meet Ofsted, ESFA and GDPR requirements.
- ✔ Makes the process stress-free and time efficient by enabling students to onboard remotely, automating as much of the process as possible.

The system is highly customisable, enabling colleges to tailor the onboarding process by programme and by level of competence. Providers can change the order of events, fully brand screens and include videos and content.

It is fully accessible on smartphones, tablets, laptops and desktops.

We were particularly impressed by the enrolment functionality within Aptem, with its ease of use for both apprentices and trainers. From an SLT perspective, we will now be able to report on one platform on all areas of the apprenticeship provision, which will have a huge impact on our ability to scale and make data-driven decisions.

**Suki Rai**, Vice Principal, Funding, Data & Compliance,  
Barnsley College

## A summary of key features

- ✓ Bulk-upload students or create accounts as and when needed.
- ✓ Students sign all compliance documentation electronically within the system.
- ✓ Ability to create an eligibility check as part of the enrolment process.
- ✓ Students can complete their self-assessment against the Skills Radar, to use against the KSBs of the standard, providing colleges with an overview of their starting point. This can be reviewed and monitored by tutors and other stakeholders.
- ✓ Integrated with the Government Learning Record Service to pull through prior learning evidence.
- ✓ Fully integrated with BKSB and Skills Forward for Functional Skills assessments.
- ✓ Fully integrated Cognassist assessment to assist with identification of additional learning support needs.
- ✓ Open APIs enable you to integrate Aptem with your existing systems.
- ✓ Built-in Record of Prior Learning Calculator to support funding adjustments.
- ✓ Smart forms functionality prevents re-entering the same data and validates data.
- ✓ Employers are given log-ins for vocational programmes, allowing them to sign off compliance documentation.
- ✓ Enrolment screens can be customised with logos, videos and messaging.
- ✓ Ability to create additional questions, and capture answers in any format.
- ✓ Prescribe the steps students go through and the order in which they should be displayed.
- ✓ Tutors can report on how far students are through enrolment process.

## Aptem Enrol is used by colleges across the UK including:

London Metropolitan  
College

New College  
of the Humanities

Bradford College

Greater Brighton  
Metropolitan  
College

TyneCoastCollege

It is also used by hundreds of other education providers including Corndel, Lifetime Training, Learning Curve Group, YMCA, University of Cambridge and St John Ambulance.

Aptem Enrol is user-friendly, flexible and allows for compliant remote-onboarding. It saves us administrative time and money and saves on mileage and printing costs, meaning that all-important first meeting with the learner can be focused on teaching and learning.

**Daniel Dowson**, Director of Funding and MIS, Learning Curve Group

If you are an organisation that helps deliver further education and employment programmes and would like to transform the way you deliver in a cost-effective, efficient and compliant way, get in touch:
